The Honorable Dave Obey
Chair
Committee on Appropriations
United States House of Representatives
Washington, DC 20515

The Honorable Alan Mollohan
Chair
Commerce, Justice, Science and Related
Agencies Appropriations Subcommittee
United States House of Representatives
Washington, DC 20515

The Honorable Jerry Lewis
Ranking Member
Committee on Appropriations
United States House of Representatives
Washington, DC 20515

The Honorable Frank Wolf
Ranking Member
Commerce, Justice, Science and Related
Agencies Appropriations Subcommittee
United States House of Representatives
Washington, DC 20515

Dear Representatives Obey, Mollohan, Lewis, and Wolf:

Thank you for your strong support of the National Science Foundation (NSF) over the years and thus far in the Fiscal Year 2011 (FY11) budget process. As the FY11 appropriations are finalized, we the undersigned organizations urge you to maintain the \$7.4 billion budget level supported by the House CJS Appropriations Subcommittee, the Senate Appropriations Committee and the President. This budget level demonstrates an extraordinary commitment to address America's competitiveness by doubling the NSF budget over ten years, as authorized in the bipartisan 2007 *America COMPETES Act* and promoted by the President.

NSF is the only federal agency that supports research and education across all science and engineering disciplines. This support has led to many fundamental breakthroughs in these disciplines which in turn have contributed to U.S. technological innovation and therefore to our economic strength.

With the U.S. currently experiencing a challenging economic environment, robust investments in NSF should be viewed as part of a long-term strategy to address our economic vitality. Such funding is imperative to maintain a prosperous innovation pipeline, by training the innovation workforce, creating new products and improving current products.

Like you, we are concerned about U.S. economic well-being. The innovation pipeline is as important for future economic growth as it has been in the past, perhaps even more so.

We ask you to continue your commitment to address U.S. competitiveness through the vigorous support of basic research funding at NSF. Thank you for your consideration.

Sincerely,

Samuel M. Rankin, III
Chair, Coalition for National Science Funding
